

SPA OF WONDERS

Press Release

QC Spa of Wonders, leading player in the hospitality industry, continues its expansion strategy by announcing the arrival of a new wellness destination in the enchanting location of **Mandello del Lario**. This addition will join the group's 12 spas and 7 hotels.

The plan, which includes the development of a breathtaking **resort** and **wellness center**, aims to enhance and draw attention to the less traveled yet highly charming side of the lake, offering a unique and immersive relaxation experience.

"We are proud and delighted that the QC Spa of Wonders project is becoming a tangible reality. It is a redevelopment and development initiative that we have worked hard on and are confident will significantly boost the tourism and hospitality system not only in Mandello but across the entire Lake Como area," said **Riccardo Fasoli**, Mayor of Mandello del Lario.

The approval process involving all relevant authorities will soon begin. This new project adds to the list of openings already announced for 2025, including the wellness center in Salsomaggiore and the inauguration of a second spa and a 50-room smart hotel in Milan.

"2024 has been a year of great satisfaction, and we are thrilled to strengthen our presence in new locations," explained **Francesco Varni**, CEO of Development and Corporate Affairs. *"Mandello del Lario represents an extraordinary opportunity to create an exclusive facility capable of harmonizing the beauty of the area with our wellness philosophy."*
